

Project flow

Date	19 November 2022
Team Id	
Project name	Machine Learning-Based Predictive Analytics for Aircraft Engine

The Project workflow goes as follows:

You will go through all the steps mentioned below to complete the project.

Download the dataset.

Preprocess or clean the data.

Analyze the pre-processed data.

Train the machine with pre-processed data using an appropriate machine learning algorithm.

Save the model and its dependencies.

Build a Web application using a flask that integrates with the model built.
